

10/15/69

Dear Gary,

As soon as you can find time and him, please get Henry Lippman to give you a xerox of the body chart he got at the Archives, or better yet, the copy he got, giving him the xerox, and send it to me. If he will let me have the copy he got at the Archives, with his inking over, please get him to note on the back that he made the markings in ink and why and sign it.

Also ask him to give me a statement setting forth that he asked for a xerox copy of the original body chart he examined and of whom he made the request, under whose supervision he examined it, etc., including the approximate time and room.

They pulled a dirty trick. I want it for the suit. I have the proof. I'll explain later. He didn't get what he asked for, and there is a reason for it.

Also, please give him a nickel for me. I think when you do this he will smile and, if he is as bright as you say, will understand and explain.

I'll have to ask Bud - and if he agrees, we'll have no funds for it - but I'd like Henry as a witness in the trial, whenever in the future it is, to testify to just these simple things.

They are, really, quite important.

They address the integrity with which the archive is administered.

Best,
